### Item # C-06-10106, C Series Rough Terrain Forklifts

The C-Series 2WD and 4WD rough terrain forklifts are made specifically for off road industrial applications. The C-Series 5,000 thru 12,000 lb rough terrain forklifts are powered by the Caterpillar 416E tractor loader backhoe power module. The engine is a C4.4 direct-injected liter turbocharged and charge air cooled engine coupled with a Caterpillar 4 x 4 fully synchromesh transmission, Caterpillar drive axle, and both 2WD and 4WD models comes with a Caterpillar steer axle.

The C-Series 14,000
